\* If the application is not granted, the applicant will be notified by SMS and by mail at the same time.

I hereby declare that I am aware of the followings:

1. The amount of early old-age pension and its subsequent increase are calculated using the percentage in the attached table of Law No. 4/2010 (Social Security System), where the percentage used corresponds to the beneficiary's age when filing the application and satisfying the eligibility requirements. This percentage will remain unchanged until the beneficiary reaches 80 years of age.
2. As a beneficiary of the old system enrolled before 1 January 2011, if you choose to continue to pay arbitrary system contributions after starting to receive old-age pension, the amount of old-age pension will not increase because of the payment of contributions, but you may continue to enjoy the protection of sickness allowance.
3. As a beneficiary of the new system enrolled after 1 January 2011, the amount of old-age pension is calculated proportionally by dividing the actual number of contribution months by 360. If you choose to continue to pay arbitrary system contributions after starting to receive old-age pension, the amount of old-age pension can be adjusted in April of each year based on the number of contribution months. At the same time, you may continue to enjoy the protection of sickness allowance.
4. According to the law, the payment of old-age pension, disability pension, unemployment allowance and sickness allowance cannot overlap each other. If the benefits overlap each other, I will choose to receive the higher benefit for the same period. If the amount is the same, I will choose the pension payment of this application.
5. It is required to provide the proof of life in January of each year.
